### Why you should not miss POWER WEEK AFRICA?

1. **Premium Networking Opportunities**  
Opportunities to network with some of the biggest names in the industry
2. **Diverse Perspectives**  
Hear from the experiences of 20+ high profile speakers from the continent of Africa and beyond
3. **Solution Oriented Discussions**  
Be involved in identifying solutions to the great challenges facing the industry today
4. **Gain a Competitive Advantage**

Stay ahead of your competitors with valuable insights exclusive to this event

**5. Strategic Planning**

Stay up to date with the latest topics, trends and issues impacting the African Power & Energy industry today

**Need more reasons to attend?**

1. Understand how to secure financing for power/energy infrastructure projects
2. Be informed of key renewable energy developments across Africa and hear expert opinions on the optimal “renewable energy mix”
3. Find out the measures Africa can take to overcome the challenge of remote area connectivity and achieve greater electrification rates
4. Understand the current trends in solar prices and the impacts new solar technologies bring to the table
5. Be informed of advancements in cutting-edge technologies and how Africa can access these innovations
6. Identify solutions to increase capacity development in the power/energy sector
7. Find out what Africa needs to do attract investment and improve its long-term investment security in the power/energy sector
8. Exchange experiences with industry leaders across the African region and beyond
9. Gain a firm understanding of establishing cost-reflective tariffs and the solutions to non-economical tariffs
10. Be involved in immersive discussions on changing electricity markets, privatisation and how power can be made affordable for all
11. Understand the approaches Africa can take to achieve a sustainable energy supply
12. Understand how PRI/PRG guarantees are granted by DFIs
