

Representatives of international delegations at the 5th Annual POWER WEEK ASIA in Singapore

A five days electric power & energy conference, inclusive of 2-day focal point main conference, 6 supplementary workshops, multiple case studies from a wide array of perspectives, expert views, and valuable insights on the Asia market outlook.

FOR IMMEDIATE RELEASE

Singapore – The 5th annual **POWER WEEK ASIA** Conference will be held from 11 to 15 November 2019 at the PARKROYAL on Beach Road Hotel, Singapore. **POWER WEEK ASIA** attracts the industry leaders from national power companies, government regulators, policy makers, renewable & IPPs, investors and suppliers from around the globe. With C-level speakers and attendees all under one roof, it offers the chance to learn the success strategies and pitfalls of notable power projects.

The conference features 20+ engaging sessions covering policy & regulations, global energy market outlook, fuel & electricity market, solar technology, energy storage, grid technologies, digitalisation, power generation efficiency, electric power transmission, power plant & power projects, investment & financing, solar & wind tariffs and many more. **POWER WEEK ASIA** is the most anticipated event, not to be missed!

Global energy leaders who have confirmed to speak:

1. **Ma Jinlong**, Vice President, **APEC Sustainable Energy Center, China**
2. **Shinichi Imai**, Managing Director, **TEPCO Power Grid, Japan**
3. **Patana Sangsrirojana**, Deputy Governor-Strategy, **Electricity Generating Authority of Thailand (EGAT), Thailand**
4. **Haji Husaini Bin Husin**, Chief Grid Officer, **Tenaga Nasional Berhad, Malaysia**
5. **Tor Inge Stokke**, President, **SN Power, Philippines**
6. **Paddy Padmanathan**, President & CEO, **ACWA Power, Saudi Arabia**
7. **Dan Neil**, COO, **MERALCO Power Generation, Philippines**
8. **Rick Truscott**, COO, **CLP Power, Hong Kong**
9. **Adrian Lembong**, Director of Technology, **Adaro Power, Indonesia**
10. **Simon Li**, President and General Manager of Asia Pacific Project Business Unit (APBU), **Trina Solar, China**
11. **Alex Hewitt**, CEO, **CWP Renewables, Australia**
12. **Lionel Steinitz**, CEO, **LYS Energy, Singapore**
13. **Petteri Härkki**, Managing Director, **Pöyry, Thailand**
14. **Anand Menon**, CTO, Eng. & Technology, **Siemens, Malaysia**
15. **Dany Qian**, Vice President, **Jinko Solar, China**
16. **Sujay Shah**, Executive Director, Cleantech Coverage, **Standard Chartered Bank, Singapore**
17. **Sunil Gupta**, Senior Vice President & Head, Renewable Energy, **Sembcorp Industries, Singapore**
18. **Laurence Kwan**, Director, Energy, **Sunseap Group, Singapore**
19. **Janne Lautanala**, General Manager for Digital Foundry, **Wärtsilä, Singapore**
20. **Lenita Tobing**, Partner, **PwC, Indonesia**
21. **Raju Shukla**, Founder and Chairman, **Cleantech Solar, Singapore**
22. **James Allan**, Director, **Frontier Economics, Singapore**
23. ... and many more

The **POWER WEEK ASIA** will feature 6 supplementary workshops addressing cutting edge topics with Real Examples and Case Studies, including, **Energy Utilities Regulation & Policy, Energy Storage, Grid Technologies, Power Purchase Agreement, Mastering Renewable & Alternative Energies** and **Clean Energy Opportunity & Risk Analysis**.

The **POWER WEEK ASIA** will also discuss on:

- How to deal with issues and challenges of regulatory uncertainties.
- The possibilities and threats for deregulation in power from policy makers' point of view.
- The up-to-date insights of global energy market trend and get to know what to expect for future electricity market in Asia.
- The impacts and solutions for resources shortage issues.
- How to handle fuel price volatility and how will the fuel prices affecting electricity market.
- The right energy transition strategy, execution and portfolio management for power and energy company.
- Opportunities for digitalization in power sector, including the potential of blockchain application, Power to X technology and Internet of Things (IoT).
- New technology trends by understanding the development of solar panel, energy storage & smart grid technologies.
- The strategies to minimise the cost of power generation.
- Methods to attract private investing in emerging market and financing new technology in energy industry.
- Technical know-how in power plant development and how to mitigate the technical risks in power plant projects.
