

Asia Pacific Smart Cities Forum

Dates: **27th - 28th September**

Venue: **InterContinental Hotel, Kuala Lumpur, Malaysia**

Link: **<https://goo.gl/219czs>**

Smart mobility, energy and environmental management systems are critical to the future of Asia Pacific Cities. With a predicted 62 mega-cities by 2025, up from the current 32, APAC has no choice but to figure out the best way to use technology to help their citizens live better lives. **The Asia Pacific Smart Cities Forum** will create the opportunity to experience the next wave of integrated solutions and innovative technologies that are already helping global cities become more connected and sustainable.
